rise of the red engineers explains the tumultuous origins of the class of technocratic
officials who rule china today in a fascinating account author joel andreas chronicles
how two mutually hostile groups the poorly educated peasant revolutionaries who
seized power in 1949 and china s old educated elite coalesced to form a new dominant
class after dispossessing the country s propertied classes mao and the communist
party took radical measures to eliminate class distinctions based on education
aggravating antagonisms between the new political and old cultural elites ultimately
however mao s attacks on both groups during the cultural revolution spurred inter
elite unity paving the way after his death for the consolidation of a new class that
combined their political and cultural resources this story is told through a case study
of tsinghua university which as china s premier school of technology was at the
epicenter of these conflicts and became the party s preferred training ground for
technocrats including many of china s current leaders
