the intergovernmental panel on climate change ipcc has become a hugely influential institution it is the authoritative voice on the science on climate change and an exemplar of an intergovernmental science policy interface this book introduces the ipcc as an institution covering its origins history processes participants products and influence discussing its internal workings and operating principles it shows how ipcc assessments are produced and how consensus is reached between scientific and policy experts from different institutions countries and social groups a variety of practices and discourses epistemic diplomatic procedural communicative that make the institution function are critically assessed allowing the reader to learn from its successes and failures this volume is the go to reference for researchers studying or active within the ipcc as well as invaluable for students concerned with global environmental problems and climate governance this title is also available as open access via cambridge core

formaldehyde is ubiquitous in indoor and outdoor air and everyone is exposed to formaldehyde at some concentration daily formaldehyde is used to produce a wide array of products particularly building materials it is emitted from many sources including power plants cars gas and wood stoves and cigarettes it is a natural product in some foods and it is naturally present in the human body as a metabolic intermediate much research has been conducted on the health effects of exposure to formaldehyde including effects on the upper airway where formaldehyde is deposited when inhaled and effects on tissues distant from the site of initial contact the u s environmental protection agency epa released noncancer and cancer assessments of formaldehyde for its integrated risk information system iris in 1990 and 1991 respectively the agency began reassessing formaldehyde in 1998 and released a draft iris assessment in june 2010 given the complexity of the issues and the knowledge that the assessment will be used as the basis of regulatory decisions epa asked the national research council nrc to conduct an independent scientific review of the draft iris assessment in this report the committee to review epa s draft iris assessment of formaldehyde first addresses some general issues associated with the draft iris assessment the committee next focuses on questions concerning specific aspects of the draft assessment including derivation of the reference concentrations and the cancer unit risk estimates for formaldehyde the committee closes with recommendations for improving the

iris assessment of formaldehyde and provides some general comments on the iris development process

psychologists offer an increasing variety of services to the public among these services psychological assessment of personality and behavior continues to be a central activity one main reason is that other mental health professionals often do not possess a high level of competence in this area and when dealing with children and adolescents psychological assessment seems to take on an even greater role therefore it follows that comprehensive graduate level instruction in assessment should be a high priority for educators of psychologists who will work with these youth this textbook is organized into three sections consistent with the authors approach to teaching part i provides students with the psychological knowledge base necessary for modern assessment practice including historical perspectives measurement science child psychopathology ethical legal and cultural issues and the basics of beginning the assessment process part ii gives students a broad review of the specific assessment methods used by psychologists accompanied by specific advice regarding the usage and strengths and weaknesses of each method in part iii we help students perform some of the most sophisticated of assessment practices integrating and communicating assessment results and infusing assessment practice with knowledge of child development and psychopathology to assess some of the most common types of behavioral and emotional disorders in youth a text focusing on assessment practices must be updated every four to six years to keep pace with advances in test development for example several of the major tests reviewed in the text such as the behavioral assessment system for children and the child behavior checklist have undergone major revisions since the publication of the last edition making the current content outdated further another major test the conners rating scales is undergoing substantial revisions that should be completed before publication of the next edition finally the evidence for the validity of the tests and the recommendations for their appropriate use evolve as research accumulates and requires frequent updating to remain current for example there was a special issue of the journal of clinical child and adolescent psychology published focusing on evidenced based assessment of the major forms of childhood psychopathology that will need to be integrated into the chapters in part 3 this latter point reflects an important trend in the field that should influence the marketing of the book that is there are several initiatives being started in all of the major areas of applied psychology e g school clinical and counseling to promote evidenced based assessment practices these initiatives have all emphasized the need to enhance the training of graduate students in this approach to assessment this has been the orientation of this textbook from its first edition that is clinical assessment of child and adolescent personality and behavior has focused on using research to guide all recommendations for practice the ability of the textbook to meet this training need should be an important focus of marketing the book to training programs across all areas of applied psychology
