this in depth and engaging volume focuses on public policy and the dilemmas posed for it by the government of increasingly diverse societies offering a theoretically and empirically rich collection of papers from some of the leading specialists in the field it fills the gap between the social and political theory of multiculturalism and institutionally based national case studies

this programme is designed both for people with firm opinions and for people who have no opinions at all it does not assume extensive bible knowledge neither does it mitigate against those who are recognized teachers of scripture in fact the real challenge of this programme is how church leaders manage the ensuing debates that arise from studying the bible in this way if you see your primary task as a leader as being one of maintaining the orthodoxy of your church tradition than this programme is probably not for you if on the other hand you believe that the words of jesus are true that the holy spirit has been given to us to lead us into all truth then this is an opportunity to strip away the traditions of men and go deeper into god s word and there discover anew the immense treasures that he has revealed in his scriptures

the fourteen essays in this volume address the pros and cons of multiculturalism and explore its relationship with liberal democracy

the growing diversity of national communities has generated pressures for the construction of new and more defensible forms of accommodating social cohesion and diversity the central question of this book is whether it is possible to develop a defensible model for minority integration encompassing the traditional dichotomy old new minorities and which reconciles unity and diversity the book contends that it is possible to address this issues by bridging two fields of research minorities and migration studying the interaction and similarities between old and new minority groups is a rather new task because so far these topics have been studied in isolation it is also an important task for future research within europe as many states have established systems of old minority rights but have not yet developed sound policies for the integration of new minority groups originating from migration the volume is a valuable resource for academics scholars advanced students

the editors and their contributors explore the world from a pluralistic perspective there are several models proposed and used by authors that could serve as a framework for multicultural and

diversity programs in both education and the workplace the implementation of programs which target the workplace and specific strategies for success are identified the international implications of globalization and the need for international as well as at home experiences are addressed by several authors regional research based programs and strategies in particular academic disciplines to promote pluralism are explored from the university perspective these models strategies and research findings should prove to be most useful for individuals seeking to implement programs to promote pluralism

presents an analysis of the nomadic consciousness of our ancestors and the forces religious and political that overwhelmed it during the neolithic era and considers its revival in the twentieth century

spoiling the cannibals fun is not a volume about captain cook unless one thinks the story of his having been eaten in the polynesian tropics is not so much about the nourishing of the barbarians with a white man s flesh as one which raises a number of questions relating to broadly understood cultural encounters in which some sort of cannibalisation is always at stake for example an encounter with the other is inevitably also an encounter of what penelope deutscher sees as the cannibal or eating subject who is always already the other in us an encounter which questions the integrity of the subject s boundaries this volume takes up such various metaphorical senses of cannibalism and cannibalisation and explores the ways they function within diverse domains and niches of culture and elsewhere
