from terrorism to social inequality and from health care to environmental issues social problems affect us all the encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives whether we confront them on a personal local regional national or global level

a color illustrated textbook that opens with an overview of the sociological tools and perspectives that are used in the study of social problems it then disusses fundamental changes and problems in four basic social institutions the economy government education and family before examining more specific topics such as health care and poverty this updated edition adds two new features signs of hope boxes and personal perspectives boxes annotation copyright by book news inc portland or

constructionist controversies reviews the substantial contributions to social problems theory that have been made by social constructionist theorists and examines debates about the future of this perspective intended for the student the volume provides a succinct formulation of all the major issues of social constructionism by contributors who are well recognized within the field for the strength with which they articulate their own widely varied viewpoints

the social constructionist perspective has revolutionized the way that social scientists investigate social problems constructing social problems spector and kitsuse 1977 2001 offered the guiding statement of the approach which both transformed and revitalized the sociology of social problems propelling it into a quarter century of exciting and innovative empirical research john kitsuse and malcolm spector challenged conventional approaches to the field they insisted on treating social problems as social constructions as the products of claims making and constitutive definitional processes the purpose of this book is to highlight contemporary challenges to the social constructionist perspective on social problems in 1993 two collections of essays reconsidering social constructionism debates in social problems theory holstein and miller 1993 and constructionist controversies issues in social problems theory miller and holstein 1993 brought a wide variety of constructionist challenges into focus challenges and choices attempts to distill these debates and offers some compelling suggestions for how challenges may be met and where constructionist studies might proceed in the future while each of the essays in this volume deeply appreciates the constructionist approach each of them points to issues and choices that social constructionists must confront if the perspective is to continue to be a vital part of ongoing debates on social problems the essays critique previous constructionist formulations make suggestions for advancing expanding or diversifying the constructionist agenda and challenge the perspective to move in new directions they remind us that social constructionism is an ongoing not a finished product and the essays point to some of the choices available to social constructionists in moving their projects into new even uncharted territories james a holstein and gale miller are professors in the department of social and cultural sciences at marquette university

each chapter in this innovative social problems text is written by a specialist or pair of specialists from appropriate subfields within sociology the typical single author approach is limiting given the complexity of the contemporary issues surrounding each social problem discussed involving many content experts ensures that the theories research

and examples used in each chapter will be as current and relevant as possible chapters open with personal statements from the contributing authors discussing how they got involved with studying the problem they are writing about javier trevino serves as the general editor making sure that each author follows the chapter template and maintains a consistency in level and style

social problems and inequality explores integrated and root cause based explanations of complex social problems written in clear and understandable language allowing it to be used for classroom purposes it addresses the most fundamental principles of how humans acting through social units create and eventually can remedy social problems with a central focus on the problem of inequality and the manner in which this is manifested in crime social class and stratification this book examines the key theoretical perspectives relevant to the study and solution of social problems whilst drawing upon rich illustrations and case studies from the us and europe to offer a thorough examination of the nature common root causes and social remedies of social problems providing discussions of both theoretical approaches and concrete applications social problems and inequality investigates the sources of various prejudices and attitudes that contribute to social problems and the associated issues of globalization economic greed and imperialism accessible in style and comprehensive in its coverage this book will appeal to students and scholars of social problems across the social sciences
