one of the prime purposes of accounting is to communicate and yet to date this fundamental aspect of the discipline has received relatively little attention the routledge companion to accounting communication represents the first collection of contributions to focus on the power of communication in accounting the chapters have a shared aim of addressing the misconception that accounting is a purely technical number based discipline by highlighting the use of narrative visual and technological methods to communicate accounting information the contents comprise a mixture of reflective overview stinging critique technological exposition clinical analysis and practical advice on topical areas of interest such as the miscommunication that preceded the global financial crisis the failure of sustainability reporting the development of xbrl how to cut clutter with an international coterie of contributors including a communication theorist a big four practitioner and accounting academics this volume provides an eclectic array of expert analysis and reflection the contributors reveal how accounting communications represent or misrepresent the financial affairs of entities thus presenting a state of the art assessment on each of the main facets of this important topic as such this book will be of interest to a wide range of readers including postgraduate students in management and accounting established researchers in the fields of both accounting and communications and accounting practitioners

information technology has permeated all walks of life in the past two decades accounting is no exception be it financial accounting management accounting or audit information technology and systems have simplified daily tasks and routine work simplified reporting and changed how accounting is done the routledge companion to accounting information systems provides a prestige reference work which offers students and researchers an introduction to current and emerging scholarship in the discipline contributions from an international cast of authors provides a balanced view of both the technical underpinnings and organisational consequences of accounting information systems with a focus on the business consequences of technology this unique reference book will be a vital resource for students and researchers involved in accounting and information management

many enquiries into the state of accounting education training undertaken in several countries over the past 40 years have warned that it must change if it is to be made more relevant to students to the accounting profession and to

stakeholders in the wider community this book's overriding aim is to provide a comprehensive and authoritative source of reference which defines the domain of accounting education training and which provides a critical overview of the state of this domain including emerging and cutting edge issues as a foundation for facilitating improved accounting education training scholarship and research in order to enhance the educational base of accounting practice the routledge companion to accounting education highlights the key drivers of change whether in the field of practice on the one hand e.g. increased regulation globalisation risk and complexity or from developments in the academy on the other e.g. pressures to embed technology within the classroom or to meet accreditation criteria on the other thirty chapters written by leading scholars from around the world are grouped into seven themed sections which focus on different facets of their respective themes including student curriculum pedagogic and assessment considerations

financial accounting reporting and regulation is a vast subject area of huge global importance with interest rising significantly in the light of the ongoing global financial crisis the authors begin with a broad overview of the subject of accounting setting the stage for a discussion on the theoretical and practical issues and debates regarding financial reporting which are expanded on in the second part of the book this includes how to define the reporting entity recognition and measurement of the elements of financial statements fair values in financial reporting and the costs and benefits of disclosure the third part assesses the interest need and theories behind the accounting reporting and regulation industry while parts four and five look at the institutional social and economic aspects with issues such as accounting for environmental management and accounting regulation and financial reporting in islamic countries both issues of ever increasing importance this authoritative companion presents a broad overview of the state of these disciplines today and will provide a comprehensive reference source for students and academics involved in accounting regulation and reporting

the routledge companion to accounting history presents a single volume synthesis of research in this expanding field exploring and analysing accounting from ancient civilizations to the modern day no longer perceived as the narrow study of how a mysterious technique was used in past the scope of accounting history has widened substantially this revised and updated volume moves beyond the history of accounting technologies accounting theories and practices and the accountants who applied them expert contributors from around the world explore

the interfaces between accounting and the economy society culture and the polity accounting history is shown to offer important insights into such disparate phenomena as the evolution of capitalism control of labour gender and family relationships racial exploitation the operation of religious organisations and the functioning of the state illuminating the foundation and development of accounting systems this updated classic book opens the field to a new generation of accounting scholars and historians around the world

many enquiries into the state of accounting education training undertaken in several countries over the past 40 years have warned that it must change if it is to be made more relevant to students to the accounting profession and to stakeholders in the wider community this book s over riding aim is to provide a comprehensive and authoritative source of reference which defines the domain of accounting education training and which provides a critical overview of the state of this domain including emerging and cutting edge issues as a foundation for facilitating improved accounting education training scholarship and research in order to enhance the educational base of accounting practice the routledge companion to accounting education highlights the key drivers of change whether in the field of practice on the one hand e g increased regulation globalisation risk and complexity or from developments in the academy on the other e g pressures to embed technology within the classroom or to meet accreditation criteria on the other thirty chapters written by leading scholars from around the world are grouped into seven themed sections which focus on different facets of their respective themes including student curriculum pedagogic and assessment considerations

to date there has been little consideration of the many different ways in which accounting and risk intersect despite organisations being more determined than ever to build resilience against potential risks this comprehensive volume overcomes this gap by providing an overview of the field drawing together current knowledge of risk in a wide range of different accounting contexts key themes such as corporate governance trust uncertainty and climate change are covered by a global array of contributing scholars these contributions are divided into four areas the broader aspects of risk and risk management risk in financial reporting risk in management accounting risk monitoring the book is supported by a series of illustrative case studies which help to bring together theory and practice with its wealth of examples and analyses this volume provides essential reading for students scholars and practitioners charged with understanding diverse facets of risk in the context of accounting in the business world

there is increasing interest in accounting issues in china despite a relatively short history china s stock market is the world s second largest this growth has been accompanied by increasing demand for accounting information alongside reforms of accounting and auditing rules as international investors have paid increasing attention to investment opportunities in this dynamic and energetic country with a large population and economic growth potentials despite this at present there are few books which offer students academics and practitioners a comprehensive guide to current accounting issues in china the routledge companion to accounting in china fills this important gap in the literature the volume is organized in six thematic sections which cover capital market and corporate finance financial accounting managerial accounting auditing taxation and internal controls the structure is intended to reflect the increasing diversity of contemporary accounting issues in china including a balanced overview of current knowledge identifying issues and discussing relevant debates this book is a prestigious reference work which offers students academics and practitioners an introduction to current accounting issues in the emerging market of china

as researchers reveal the increasing complexities of accounting practices in emerging economies there is a growing need for an overview of the topic the routledge companion to accounting in emerging economies is a prestige work offering an introduction to current scholarship in the field with indications of future directions for enhancing the contribution to knowledge with regional coverage of key emerging economies such as brazil russia india and china the team of contributors analyse accounting in detail whilst shedding light on the role of the accounting profession in providing accountability and governance across the developing world each chapter is headed up by an internationally recognised author who is a leading expert in designing and implementing research approaches to the topic within the team of authors some are experienced senior contributors while others are developing new avenues of exploration on the basis of high quality doctoral study this range of author experience is deliberately chosen to allow the reader to envisage working in such a team while growing in confidence this unique reference offers a comprehensive guide to advanced students academics practitioners and policy makers on the current state of and potential developments in accounting in developing economies globally this will be of particular interest to students and researchers looking to identify topics in emerging economies academics and practitioners seeking convenient access to an unfamiliar area and established researchers seeking a single repository on the current state of knowledge current debates and relevant literature

the on going global financial crisis has led to a new found appreciation of the social economic and political importance of accounting concepts generally and corporate reporting in particular this comprehensive authoritative volume offers students academics regulators and practitioners an overview of the current scholarship and practice of this established discipline

the concept of fair value marked a major departure from traditional cost accounting in theory under this approach a balance sheet that better reflects the current value of assets and liabilities critics of fair value argue that it is less useful over longer time frames and prone to distortion by market inefficiencies resulting in procyclicality in the financial system by exacerbating market swings comprising contributions from a unique mixture of academics standard setters and practitioners and edited by internationally recognized experts this book on a controversial and intensely debated topic is a comprehensive reference source which examines the use of fair value in international financial reporting standards and the us standard sfas 157 fair value measurement setting out the case for and against looks at fair value from a number of different theoretical and practical perspectives including a critical review of the merits and arguments against the use of fair value accounting explores fair value accounting in practice involvement in the great financial crisis implications for managerial reporting discretion compensation and investment this volume is an indispensable reference that is deserving of a place on the bookshelves of both libraries and all those working in studying or researching the areas of international accounting financial accounting and reporting

auditing has been a subject of some controversy and there have been repeated attempts at reforming its practice globally this comprehensive companion surveys the state of the discipline including emerging and cutting edge trends it covers the most important and controversial issues including auditing ethics auditor independence social and environmental accounting as well as the future of the field this handbook is vital reading for legislators regulators professionals commentators students and researchers involved with auditing and accounting the collection will also prove an ideal starting place for researchers from other fields looking to break into this vital subject

construction guide tax and advisory services provides cpas with guidance on the tax considerations that are particular to the construction industry in addition it provides cpas with guidance on engagements for a wide range of situations including those special to utility contractors road builders home construction commercial construction residential construction land developers real estate

developers and more the book includes work programs practice aids checklists and sample reports

this book is a collection of original peer reviewed contributions from the 2023 international conference on smart rail traffic and transportation engineering jointly organized by Beijing Jiaotong University China Electrotechnical Society Chinese Institute of Electronics and Central South University it was held on July 28-30 2023 in Changsha China topics covered includes smart rail systems autonomous vehicles energy efficiency sustainable transportation big data in transportation and machine learning speakers discussed innovative technologies and strategies to improve the efficiency reliability and safety of rail networks while exploring the opportunities and challenges of integrating autonomous vehicles into existing transportation networks it provides valuable insights into the latest developments and trends in transportation engineering and technology with a focus on electrification and sustainable transportation it serves as a valuable resource for professionals researchers and students working in the field
