- Lexical Approach** Emphasis is placed on vocabulary acquisition and the understanding of collocations words that frequently occur together Instead of focusing solely on individual words it promotes the learning of word families and chunks of language This is akin to learning musical phrases instead of individual notes
- Grammar in Context** Grammar is taught inductively meaning learners discover rules through exposure to examples rather than memorizing abstract rules first It's like learning to ride a bike you don't first study the physics you practice and gradually understand the balance The series provides ample opportunities for learners to observe patterns and deduce grammar rules
