this analysis of the historical evolution and contemporary form of the system of world politics utilizes contemporary theories and debates in sociology and global history critically reflecting also on world politics in the field of international relations this book will appeal to a wide readership in a range of fields

the west is a central idea in german public discourse yet historians know surprisingly little about the evolution of the concept contrary to common assumptions this volume argues that the german concept of the west was not born in the twentieth century but can be traced from a much earlier time in the nineteenth century the west became associated with notions of progress liberty civilization and modernity it signified the future through the opposition to antonyms such as russia and the east and was deployed as a tool for forging german identities examining the shifting meanings political uses and transnational circulations of the idea of the west sheds new light on german intellectual history from the post napoleonic era to the cold war

english summary after the end of the cold war there has been a revival of geopolitical thinking this became apparent in the discussion of the orientation of german foreign policy after reunification as well as in the discussion of the future relevance of the atlantic and eurasian region for europe after the end of the cold war this is the central issue this paper deals with the paper analyses the geopolitical designs for europe which have been developed since 1989 91 in these designs two divergent strategic orientations become apparent either geopoliticians plead for a close partnership with the united states or they cast europe as the counterbalance to the united states this makes it clear that atlantic and euro eurasian ideas of europe clash despite these different views there is one common point the role of the united states is crucial it is the key to the

geopolitical designs for europe german description mit dem ende des ost west konfliktes erfuhr das geopolitische denken eine wiederbelebung deutlich wurde dies in der diskussion uber die aussenpolitische orientierung des wiedervereinigten deutschlands und uber die zukunfftige bedeutung des atlantischen und des eurasischen raumes fur europa die arbeit untersucht die nach 1989 91 entwickelten geopolitischen europamodelle die sich mit diesen fragen auseinandersetzen in den modellen kommen zwei divergierende strategische ausrichtungen zum ausdruck entweder pladieren geopolitiker fur die strategie der anlehnung an die vereinigten staaten von amerika oder sie postulieren eine europaische gegenmachtbildung unter dem einschluss eurasiens bei beiden zueinander im gegensatz stehenden vorstellungen bilden die vereinigten staaten von amerika den dreh und angelpunkt des jeweiligen geopolitischen europamodells atlantische und euro euraische vorstellungen von europa wirken so als antagonistische grossen

in short the 24 selected and representative articles written in english by the author over the past 30 odd years mainly published in international leading journals and now collected and compiled in this monograph could be deemed the products of international academic debates they record reflect and embody the author s personal views on a number of contemporary basic issues in international economic law the international economic order these personal views with chinese characteristics are deeply rooted in china s specific national situation and the common position of the world wide weak groups and are significantly and substantially different and independent from some existing voices from strong western powers which is why the book bears the title the voice from china on the basis of their specific themes and content the 24 representative articles are divided into six parts 1 jurisprudence of contemporary international economic law 2 great debates on contemporary economic sovereignty 3 china s strategic position on contemporary international economic order issues 4 divergences on contemporary bilateral investment treaty 5 contemporary china s legislation on sino foreign economic issues and 6 contemporary chinese practices on international economic disputes case analysis

osterhammel's book represents a new approach to the subject the concise but sweeping study encompasses the process of colonization and decolonization from the early modern period to the twentieth century virtually all other studies to date have looked at strategies of colonial conquest exploitation and rule from the imperial point of view osterhammel shows that the colonial situation developed in ways that duplicated neither the metropolis nor the pre colonial society but instead blended these and added a new direction characteristic only of colonial realms he emphasizes that the europeans were normally not considered dangerous invaders by local populations until they threatened the traditional cultures with missionaries european schools and bureaucracy

this volume represents a comprehensive analysis by the best known experts in the field on both sides of the atlantic of how and why germany and the united states found themselves at war against each other in 1917 and how the end of their confrontation in 1918 19 paved the way for an era of renewed cooperation perspectives offered go well beyond the diplomatic and military aspects of the german american relationship and include cultural and economic questions germany and the united states of america the krefeld historical symposia

an essential resource for those interested in asia recognized as the leading publication in its field it features articles on the history arts social sciences and contemporary issues of east south and southeast asia as well as a large book review section

by reproducing the political and historiographical debates surrounding the legacy of the habsburg empire this book follows the transformation of historico political thinking during the two world wars this transformation began in germany where völkish streams of the conservative revolution offered a radical new interpretation of history these reading focused on the unchanging essence of the volk and treated a certain idea of the habsburg past as inorganic derailing history and conflicting with the true calling of the german people the völkish movement and its historiography both inspired and challenged austrian and hungarian intellectuals asking them to either adopt or resist this new philosophy and

the politics it represented building a history out of the realignment of german thought and its affect on small states within germany s cultural orbit this volume richly recounts the clash between domestic tradition and imported innovations

the subject of volume ii of the general history of the caribbean is the evolution of caribbean society through the intrusion of europeans possibly the most significant event in caribbean history was when christopher columbus landed in the bahamas on 12 october 1492 thus ending the biological isolation of the american continent

the book seeks to add to both german and colonial history detailing the effects of colonization on both the rulers and the ruled the nine essays cover topics from anthropology and decision making in the german colonies to slave labor in german togo the superstructure of the colonial state in german melanesia and the position of the indigenous populations in german africa a final chapter provides a historical perspective on german imperialism a selected bibliography and an index complete the work this collection will provide a valuable contribution to the body of knowledge on german and european colonial efforts

this collection of new studies in german history is published in honour of john a mores one of australia s foremost german historians the essays collected here written by some of the most distinguished scholars working in america europe and australia reflect the contribution that professor mores has made to our understanding of modern german history and in particular to the complex relationship among the church the state and opposition movements such as trade unionism and communism this volume also includes important essays on the interaction of power and ideology in germany from the kaiserreich to the third reich the development of democratic movements in germany debates within contemporary historiography and australian german perspectives john a mores was educated at the universities of queensland munich and erlangen where he took his doctorate on carl legien and the free trade unions in germany dr mores has published widely on matters as diverse

as the Fischer controversy, Germany's imperialist policies in the Far East and trade union theory in Germany and elsewhere. He has recently retired from his position of associate professor in the history department at the University of Queensland.
