a recent study in the field of comparative economics or more precisely numerical comparative law constructed an index of procedural formalism of dispute resolution for more than 100 countries and analyzed the relationship between procedural formalism and certain aspects of quality of the judicial systems the study's results suggest a strong relationship between legal origins formalism and the quality of dispute resolution not surprisingly the study closes with a recommendation for reform what makes this study so important is not only its findings backed by an amount of data which seems to be a guarantee for the study's universal validity but also the financial support of the world bank an indicator of the bank's interest in these questions similar studies in the area of banking securities and corporate law have received much attention from the legal community however for the recent study on civil procedure this is not the case christoph kern provides a first critical approach to the study from the perspective of a legal scholar he does not suggest a mere re-coding but focuses on the methodology and the underlying legal questions after an extensive discussion of the input to the study the author turns to the way the study combines the data and in particular how it interprets the results he concludes that the study leaves a mixed impression and that therefore doubts remain as

to its results and interpretation

reveals how cold war u s presidents intervned in latin america not as the official argument stated to protect economic interests or war off perceived national security threats but rather as a way of responding to questions about strength and credibility both globally and at home

resource added for the paralegal program 101101
