an engaging guide on how to bring clarity on both an individual and organizational level and improve workplace efficiency organizations are stressed innovation and global competition have become the source of relentless pressure and customers have never had higher expectations corporate efforts to improve everyday productivity and boost profits are producing diminishing returns yet a new frontier of enormous opportunity to improve results is hidden in plain sight according to a fortune 500 study as much as 80 of working time is lost to tiresome meetings unclear expectations difficult decisions and other wasteful delays overcoming the lack of clarity behind this waste on both an individual and organizational basis would reap huge rewards in the power of clarity Ann Latham exposes the unrecognized confusion and explains how to eliminate it this fascinating guide to workplace productivity and effectiveness draws upon extensive research and case studies to demonstrate how you can get better results in far less time while also increasing confidence and commitment

in this two volume collection the editors have chosen a sample of some of the most essential and inspirational articles and papers for understanding revealed preference methods to value environmental amenities the papers cover the gamut of methods that are typically classified as revealed preference approaches including recreation demand models hedonic methods and averting behavior methods as well as efforts to combine stated and revealed preferences while this collection is far from exhaustive the editors have included papers they believe will represent the state of the art in the theory and application of revealed preference methods contribute to development of the state of the art or raise fundamental challenges and insights that will drive the research agenda in the coming years

the quality of legislation within the commonwealth is an essential element of democracy and the rule of law although a neglected territory until recently the legislative drafting debate is at the forefront of academic and professional fora at a commonwealth and at a national level this book brings to light the academic foundations of legislative quality and the many recent innovations deriving from commonwealth jurisdictions this book was based on a special issue of the commonwealth law bulletin

this book presents the results of the latest in a long running research project using the rimes instrument developed by scholars in spain here rimes is used to measure the extent of social exclusion resulting from the penal system in comparative perspective the volume shows the results of the application of the instrument in seven criminal justice systems germany italy spain poland england and wales california and new york divided into two parts the first provides a general overview of the rimes instrument including a discussion of the theoretical model and the methodology the second part focuses on the results of the application of rimes in the seven jurisdictions the comparative results are organised according to the nine dimensions included in the rimes instrument control of public spaces legal safeguards sentencing and sanctions systems harshest penalties prison rules preventive intervention legal and social status of offenders and ex offenders police and criminal records and youth criminal justice the last chapter summarizes the comparative results and ranks them in terms of the findings on social exclusion the book will be of interest to academics researchers and policy makers working in the areas of comparative criminal justice criminology criminal law and policy

the story of jesus s transfiguration as recorded in the synoptic gospels has proved to be a fruitful source of theological reflection since the time of the early church although christ s luminous and glorious transformation is the central event the transfiguration story possesses a number of other interesting facets including the role of the trinitarian persons the transformation of the disciples and the presence of moses and elijah the story also raises a number of christological issues including the relationship between christ s divinity and humanity and the nature of his body before and after his resurrection the narrative placement of this event before christ s passion death and resurrection invites reflection on soteriological and eschatological themes as well this fairly brief episode in christ s life thus unites a number of closely related themes in a short dense and very rich narrative light and glory offers an engaging comparison of the teachings of seven thirteenth century theologians three franciscans and four dominicans on the subject of the transfiguration of christ the franciscan authors discussed are alexander of hales john of la rochelle and bonaventure the dominicans examined are hugh of st cher guerric of st quentin albert the great and finally thomas aquinas given the roughly chronological nature of the book s discussion the influence of earlier writers in the group is shown on the later writers development within a particular author s understanding of the transfiguration is noted as well as the influence of each author s thought on others through their teachings and writings these seven theologians created a profound scholastic expression of what christ s transfiguration was and what it meant for christians in their day about the author aaron canty is associate professor of religious studies at saint xavier university praise for the book although there is considerable literature on eastern readings of the transfiguration and in patristic authors there has been little meaningful study of the transfiguration in the high medieval authors canty makes available a period of development of doctrine that has otherwise passed into obscurity john cavadini chair department of theology university of notre dame lucidly organized and clearly written this book is a marvelous and perceptive study of seven reflections on the transfiguration of christ during the roughly four decades that separate the first mendicant friars from thomas aquinas canty deftly puts this conversation in patristic context and draws lines of continuity from the early church to the high medieval discussion drawing on a range of sources including biblical commentaries commentaries on peter lombard s sentences disputed questions and summae canty successfully proves that the friars themselves highly influenced by ancient thought on this key episode in the gospels made their own unique contribution to its interpretation kevin madigan winn professor of ecclesiastical history harvard divinity school time and again theologians and spiritual authors were intrigued by the story of the transfiguration of christ its theological implications and its rich symbolism canty s thorough study unveils how the masterminds of the

thirteenth century confronted the familiar account with unexpected questions and startling interpretations fascinated by the person of Jesus Christ the early mendicant theologians produced a theologically rich and unique blend of biblical exegesis and systematic christology meaningful beyond the boundaries of its medieval setting Thomas Prüggl professor of church history University of Vienna Canty is sensitive to the ways in which exegetical literature begs to be read in a different light than other scholastic writing but he shows clearly that he

the creation of the unified patent court UPC is the most prominent change in the European legal landscape for the last four decades this book explains how the new system works in practice and how to make the best use of its provisions it offers readers an in depth and comprehensive commentary on the legal mechanisms of the upcoming ratified European patent law and advice on potential problems that users of the forthcoming regulations may face the book first describes the creation of the unified European patent law and how its four new legislative texts interact the new legislative texts are then explained and commented on in detail rule by rule with diverse approaches and perspectives from a practitioner team comprising patent litigators European patent attorneys law professors and patent judges the commentary takes into account the practical needs of users of the new system on both the prosecution and enforcement sides addressing substantive and procedural problems this book is the most authoritative text on the unitary patent and unified patents court and an invaluable tool for practitioners in this rapidly developing area of law

includes annual report

in the wake of the Exxon Valdez oil spill a conservation trust helped stabilize and regenerate the damaged area when bird habitats along the Platte River were

threatened by grayrocks dam a similar trust came to their rescue and if a family wants to protect its land for future generations establishing a trust may be the best solution for more than a century bequests of land and funds for environmental protection have been common but in recent decades the trusts used to address conservation issues and resolve environmental disputes have diversified and grown significantly this book examines a variety of conservation organizations built on or close to trust principles some government creations some private some combinations of the two to explain how conservation trusts are created and how they work it explores strengths and weaknesses of the trust concept considers the widespread use of land trusts and presents case studies that both illustrate successes and give instructive examples of potential pitfalls drawing on cases from maine to hawaii the authors examine the different kinds and configurations of trusts they consider government trusts that blend federal state and local agencies into a single entity or that derive funding from outside legislative and executive channels trusts established by government and private cooperation to share responsibility for jointly held and managed resources and trusts established by private organizations and families for each type they explain why each is created how it operates and whether it has been proven effective they also address the important issue of accountability and consider when a trust is not the answer to a problem as more americans reject federal control of land in favor of local determination land trusts have become the most popular tool for the preservation of land habitats and species and as the sharing of authority among public private and diverse government partners becomes more prevalent sound guidelines for establishing effective trusts are critical this book shows how the trust template provides an invaluable approach for future conservation efforts and is a primer for anyone involved in environmental management
