to understand africa one must understand nigeria and few americans understand nigeria better than karl maier this house has fallen is a bracing and disturbing report on the state of africa s most populous potentially richest and most dangerously dysfunctional nation each year with depressing consistency nigeria is declared the most corrupt state in the entire world though nigeria is a nation into which billions of dollars of oil money flow its per capita income has fallen dramatically in the past two decades military coup follows military coup a bellwether for africa it is a country of rising ethnic tensions and falling standards of living very possibly on the verge of utter collapse a collapse that could dramatically overshadow even the massacres in rwanda a brilliant piece of reportage and travel writing this house has fallen looks into the nigerian abyss and comes away with insight profound conclusions and even some hope updated with a new preface by the author

nigeria s leaders have tended to elect themselves by bullet and not ballot with military coup following military coup a country of rapidly rising ethnic and religious tensions and rapidly falling living standards the pressure cooker that is nigeria is building dangerously close to an explosion that would send shock waves throughout africa and beyond book jacket

nation power and dissidence in third generation nigerian poetry in english is a theoretical and analytical survey of the poetry that emerged in nigeria in the 1980s hurt into poetry the poets collectively raise aesthetics of resistance that dramatises the nationalist imagination bridging the gap between poetry and politics in nigeria the emerging generation of poetic voices raises an outcry against the repressive military regimes of the 1980s and 1990s ingrained in the tradition of protest literature in africa the third generation poetry is presented here as part of the cultural struggles that unseat military despotism and envisage a democratic society

an introduction to the politics and society of post colonial nigeria highlighting the key themes of ethnicity democracy and development

the relevance of philosophy by professor sylvanus ifeanyichukwu nnoruka the relevance of philosophy defends the assertion that philosophy is not a theoretical irrelevant enterprise philosophy is relevant to life and this book makes use of phenomenological and hermeneutical methods to offer solutions to the social political and economic problems in africa specifically nigeria with regard to nigeria many are of the opinion that the problem is simply and uniquely that of leadership others think it is ethnicity while some opine that it is lack of authentic education method the articles in the book tackle these and other relevant problems the authors recommend this book to all nigerians and indeed every african the authors believe it is not enough to keep bemoaning the regrettable events of the past which have crippled africa s development rather through critical reasoning they aim to generate unique solutions to nigeria s problems

nigeria s democratisation efforts since attaining political independence from britain have been tumultuous and have spanned over three successive republics a persistent bug decimating nigeria s democracy and repeatedly leading to military coups has been brazen electoral violence perpetrated by the nation s political elite nigeria s 2019 democratic experience analyses and explains what went wrong in nigeria s experiment with democracy nigeria africa s most populous nation

and the world's seventh most populous nation also contributes 70% of West Africa's population. She is Sub-Saharan Africa's largest oil producer and has remained Africa's largest economy by GDP since 2014. The country has hundreds of diverse ethnic nationalities and languages grouped into 36 states or federating units and an independent federal capital territory though recognized as Africa's largest democracy. Her democratisation process since the 1960s has remained tumultuous with massive electoral violence and political intolerance. This repeatedly compelled the military to intervene in the nation's political history in the years 1966, 1983, and 1985. It is these developments that provided the motivation for this volume to capture for posterity the conduct of the 2019 general elections in Nigeria.

This book reflects on Nigeria's fourth republic, the country's longest democratic period since it gained independence from Great Britain. It argues that although constitutional or political democracy has lasted for over two decades in Nigeria and seen three successful democratic changes of power, Nigeria's democracy remains largely militarised. During Nigeria's fourth republic, political and socio-economic affairs have been increasingly dominated by a pervasive military presence and ideology which has seen a redistribution of resources and government funds away from social programmes into an increase in security budgets, weapons proliferation, and internal military interventions and occupations. This institutionalisation of violence has turned the country into a national security state where the rule of force and violence rather than dialogue and compassion reflect everyday reality. Whilst acknowledging the history of militarisation during colonial and military rule, this book makes a compelling argument for considering the distinct character of the Nigerian nation-state's path to militarisation over the last 20 years of experimentation with democracy. This book's fresh insights into the fourth republic's path to militarisation will be of interest to researchers of African politics, security, and development.

considers the challenges that Nigeria's leadership now faces, offering rich and sobering analyses of the current political and economic systems.
